Season of Creation 2024 - During the Season of Creation we are reminded how Climate change is affected by the way we live - by the way we use cars, tractors and lorries and all other modes of transport - by the use of fossil fuels, pesticides and insecticides which harm the atmosphere - by pollution of our rivers, lakes and seas. Our attitudes and our actions have consequences for the Earth and the poor in our world. We need to be challenged about our attitudes and our way of living. Our waste of food, our destruction of the environment - through pollution and litter.
