## Reflection

There are two kinds of faith. The first is the faith of those who believe because they follow the traditions of their ancestors, strongly maintaining their tradition of faith. This could be called an inherited faith. The second is the faith of those who have gained it through reason and philosophical thinking. The second could be called a personal faith. We need to grow in our understanding of the faith. We must believe out of a personal conviction. The more of such people we have in the Church, the more it is founded on rock. We need God's grace, not only to profess our faith but also to live it.
