The Season of Creation 2025 Teach children to handle waste responsibly. The question of waste is so important for the environment. At a young age, children can learn to throw their papers, yogurt cups, or fruit peels into different containers (colour coding them can help). You can also help them understand the reason for recycling certain wastes in order to limit consumption at home. From about 6 or 7 years of age, they can also do little crafts out of discarded containers as a way of making recycling a game.

Our relic of St Carlo Acutis, received last year, will be permanently enshrined in a new repository beside the Tabernacle.
